Technology for your School with eduvWEB

A product of Dreamsoft Solutions (DSS)
DreamSoft Solution – Trusted Since 2003

• Since 2003, we have been meticulously growing and shaping our team. Made up of enthusiastic and skilled individuals, our diversity and expertise are matched by our desire to make a difference. So much so, that we believe our team say as much about us, as the work that we create. It’s only when we put people and relationships first, that we can deliver the highly functioning products and services we are renowned for.

• We design, create and develop for schools & academies across the India. Our websites don’t just look great, they work great too. Our in house development team carefully crafts every line of code using the latest technologies, to create a fully-tested, effective, online presence.

• In today’s digital world we believe technology empowers creativity. It gives us the potential to do something different, challenge the way that people behave and change outcomes. Just look at the smart phone if you are searching for an example
Each project with School Website begins in the same manner; examining your school’s position in the marketplace, identifying your competitors, understanding your target audience and measuring your school’s level of brand recognition and reputation.

*You can manage your schools activities on your website such as school result student wise, exam time table, notification popup, homework, admission form online, academic calendar, complain – feedback for parents, activity, news & events etc.*

**Manage your school website with ease.**

EduWeb brings together teachers, students and parents with great-looking websites that are easy to build and fun to keep fresh.

**So simple, your non-techies will love it.**

With EduWeb, you don’t need a computer science degree to keep your content current. Everyone from your teachers to your school secretary will appreciate its simplicity.
